4th May 2020

Dear Parent,

As we enter week three of our remote learning provision we are aware that some families have had difficulty accessing the materials our staff have been preparing and uploading to the homework area of our school website weekly.

Therefore, on Friday of this week we will have printed copies of the last three weeks work available for collection should you require it. Please email me to request a pack and I will have it photocopied and in the foyer for collection from 1-3pm on Friday afternoon. If you also require some reading material for your child please request this by Wednesday and we will also have books available for collection. There will be a box in the foyer for the return of books you may have at home.

Remember, this work is available for you if you wish. We would like to see our children complete as much as they can but we are very aware of the difficult circumstances everyone finds themselves in and therefore I would like to reiterate my previous message – do what you can, whatever is manageable for you and your family.

Please remind our superstar pupils that they can continue to read books they have at home and from NI Libraries online - we would love to see more of our children quizzing on AR. Spelling shed is also available if they have a device to use.

We hope that you are all safe at home and enjoying the beautiful weather as much as you possibly can.

Kind regards,
G Hay
(Principal)
